TO: Hattie Thomas, EPA

FAX #: 551-7066

Reference: PCB Document Repositories, MO and KS

COMMENTS:

Hattie,

I received the attached E-Mail from Scott Bradford today. He has provided the closest public library facilities to each PCB Treatment, Inc, site and the point of contact for each library.

If you need additional information, don't hesitate to call.

Alan

Alan

The closest library to the Kansas Site I believe will be the Minnesota Avenue location across from EPA. The contact of placing the documents is Linda Wolford, Head of Adult Services (913)551-3280. Her request was to give the library a lead time on what, when and for how long the files would be on display.

The nearest Kansas City Missouri Library is at 525 Southwest Blvd, KCMO 64108 (816)471-1591. Mr. Aaron Renick is the contact, but I will call him today to confirm if he or another person is doing the coordination <Addition> I spoke with Mr. Renick at 1100 hours. He is the contact. At first he was reluctant to let the documents be there because it is a small store front library and they already have some reference material stored on the floor and in the basement. Depending on the size, he will make space, or store in the basement and retrieve when people request to review.

Scott
